

Northwest Georgia Chapter Meeting

Thursday, July 8, 2010

Please join us for lunch on July 8 at the Western Sizzlin on Legion Drive in Dalton for an informative meeting on fuel storage tank requirements and compliance issues. Our special guest will be Jim Young of United Pump and Controls. Mr. Young will discuss several issues involving fuel tanks and fuel storage on your property including:

- Fueling site maintenance requirements.
- How to determine whether operating your own truck fleet fueling facilities makes economic sense.
- Local, State and Federal fueling site compliance issues.
- Adding Diesel Exhaust Fluid (DEF) storage to your facility.

If you have on-site fueling locations or are considering the investment, you don't want to miss the information available at the Dalton meeting. Please join us and bring a friend. Meeting time is at 11:30 am, and we hope to have everyone on their way back to work by 1:00 pm. And please remember, guests who are interested in becoming GMTA members are always welcome! See you on July 8th.

Please register me for the:

**DALTON LUNCH MEETING: Thursday, July 8 @ 11:30 AM
Western Sizzlin' Restaurant 501 Legion Drive, Dalton**
