

Safety Management Council

**July 29th
Safety Council Dinner Meeting**

Please join us on Thursday, July 29 at the Green Manor for some insight into one of FMCSA’s latest hot topics, sleep apnea, and what a local company is doing to help the trucking industry.

Fusion Sleep, headquartered in Johns Creek, Georgia, specializes in all areas of sleep medicine, clinical research, clinical and research sleep technology, sleep therapy and compliance, and Transportation Sleep Medicine.

The company has developed a comprehensive program that combines professional expertise in the field of Sleep Medicine with multiple treatment options for both children and adults. In addition, Sleep4Safety, a dedicated program to address fatigue-related issues common in the transportation industry incorporates a wide range of customized health and safety management components for the detection and treatment of sleep disorders as well as long-term monitoring and compliance coaching or management of sleep therapy for truck drivers.

Fusion Sleep is a new affiliate member of GMTA and Mary Parrish, Vice President of Transportation Safety for Fusion Sleep, is our special guest speaker. Ms. Parrish will walk us through the Sleep4Safety Program and how it has been designed specifically for the trucking industry.

Don’t miss this opportunity to see how your drivers can deal with sleep apnea and how your company can be assured that they are getting the rest they need before going on duty. Please join us for an informative meeting and a delicious dinner at the Green Manor. Dinner is at 6:00 pm, so don’t be late! And please remember, guests who are interested in becoming GMTA members are always welcome. See you on July 29th...

Please register me for the:
