

***IS YOUR COMPANY REPRESENTED ON
THE GMTA SAFETY MANAGEMENT COUNCIL?***

Safety professionals in the trucking industry wear many hats. Driver safety and education, human resource management, enforcement issues, local, state and federal regulations, just to name a few, keep today's truck safety professional's very busy. Staying current on these requirements and keeping an eye on your bottom line is a never-ending challenge. Now there's help.

The GMTA Safety Management Council offers safety professionals in Georgia an easy and accessible source of ideas, information, and professional development for every type of operation. Promoting highway safety among Georgia motorists and the trucking community is our primary focus. Each year, members of the Safety Council and the Georgia Road Team collectively spend hundreds of hours inspecting commercial vehicles at weigh stations throughout the state, hosting public outreach projects at welcome centers and rest areas, and teaching drivers of all ages how to share the road safely with other vehicles. Our monthly meetings include informative speakers and opportunities for our members to learn new methods and ideas for improving safety at their company. Each year the GMTA Safety Management Council earns the *Summa Cum Laude* award for excellence from the American Trucking Association for our leadership and active participation in safety events.

The GMTA Safety Management Council also works closely with a multi-agency alliance called NETS, the Network of Employers for Traffic Safety. Georgia NETS includes representatives from the Federal Motor Carrier Safety Administration, Governor's Office of Highway Safety, Georgia Department of Public Safety, Georgia Department of Transportation, Georgia Road Team, Georgia Operation Lifesaver, National Safety Council and GMTA-member trucking companies and affiliates. Partnerships with these groups have led to other highway safety initiatives including Drive Safely Work Week, Law Enforcement and Truckers for Safety, Georgia Truck Safety Awareness Week, Hands Across the Border, and Experts On the Road. Again, the group's mission is to make Georgia highways safer for all motorists through education and outreach. In addition, the GMTA Safety Management Council is host to the annual Georgia Truck Driving Championships, Georgia Fleet Safety Awards, Georgia Driver and Safety Professional of the Year and the Rick Perkins Memorial Scholarship Award.

And, if that's not enough, your membership in the Safety Management Council saves you money on meetings, seminars and other Council activities throughout the year.

The GMTA Safety Management Council is more than a monthly gathering. It is an opportunity for trucking industry professionals to go beyond the workplace and share their experience and insight with their peers and the public. So, won't you join us? After all, highway safety is everybody's business.

Annual Safety Council Dues: \$50.00 for GMTA members
